

## CUSTOMER PROBLEM STATEMENT:

I am	I'm trying to	But	Because	Which makes me feel
<p>Heart disease is said to be a big threat for the people above the age of 40 that over a day into the younger people under the age of 40 because the risk might have a high chance of getting coronary artery disease. But this condition returns when they substance called plaque builds up inside your coronary arteries and other reasons are that the higher because it is a life threatening people before that something that I believe that is a disease of lifestyle that attack that is hidden cause of the age is what the doctor told it can be treated mostly using pills that other one came to technology like the something and providing a solution to the field of medicine that most change need there is because things that make use of technology and it is a solution that people</p>	<p>Our solution is about to find out the persons who are all on the edge to caught by heart disease. For this we taking a survey on people health conditions by age, gender and what type of foods they are taking by this we predict and visualize the people those who are all normal vs affected through data analytics.</p>	<p>When they facing a problem of health illness they feel lonely, get depressed of them and their family, feel insecure etc. After knowing their illness can be treated, they have hope, confidence to tackle their problem and fight for they love.</p>	<p>The main reason of getting Cardio Vascular Diseases are diabetes, high cholesterol, blood pressure, smoking, mental depression, eating an unhealthy diet and family history of heart disease.</p>	<p>Cardiophobia is the main fear. Get tensed and collapsed when handling tough situations. And they want a good care from their loved ones. It is the most valuable thing for them and first of all they should have the self belief that they'll be alright.</p>
